(Moore) Robbins

Jennie Robbins, wife of H. A. Robbins, passed away at her home, 1145 Haverhill street, Wednesday, Sept. 9. Mrs. Robbins had been ailing for some time, but her illness in many years from Bright's disease and its complications and proved a constant sufferer, being confined to bed for three weeks.

Jennie Robbins was the daughter of Newcomb and Mattie Williams Moore, and was born, July 3, 1870, in Albany. Her marriage to Mr. Robbins, some years ago, they resided in the village about six years, then moving to Boston on Pike's Hill.

Jennie was a most devoted mother and a devoted friend to herself and giving aid to those in trouble. She leaves relatives and friends to mourn the loss so dear.

Jennie was married to Mr. Robbins, and she leaves three children, one, Myrtle, who lives at home, and Thelma, who married Newcomb and Melvina, who live at 1145 Haverhill street, and died

small child. She also leaves seven children, Mrs. Cora Upton of Harrison, Mrs. Clara Robinson of Sutton, Vt., Mrs. MacDougal of Exeter, N. H., Mrs. Ade Pottle of Norway, Mrs. Grace Upton of Auburn, Mrs. Mattie Moore of Auburn and Mrs. Angie Cote of Exeter, N. H. One brother and one sister several years ago.

Funeral services were held at the home, Monday afternoon, Rev. C. G. Miller read words of comfort to the bereaved and paying a deserved tribute to the faithful life of the departed. The services were most beautiful and abundant, and the expressions of sympathy of many

GIVING OUT

The Struggle Discourages Many a Citizen of Norway

Around all day with an aching back, Can't rest at night; Enough to make anyone "give out," Doan's Pills are helping thousands. They are for kidney backache, And other kidney ills.

Here is Norway proof of their merit:

John F. Sampson, prop. painting establishment, 174 Main St., says: "I was feeling run down and miserable. I was tired and nervous and my kidneys didn't act regularly. At times the secretions passed too frequently, then again they were scanty. My head ached night and day. A friend advised me to try Doan's Pills so I sent to Stone's Drug Store for them. When I had finished taking Doan's the trouble left and I have not been bothered since. I can certainly recommend Doan's to anyone afflicted likewise."

NEW ENGLAND WEEK

This is New England Week. Much preparation has taken place for this observance. The object is to display the products on which the prosperity of New England depends, to illustrate to New England's own people the beauty and utility of the products of the industries of New England and to demonstrate to the world beyond our borders how vast and various are the activities that have earned for New England her fame.

Labor, management and capital are uniting to make this New England Week a definite success. New England products are featured and the uses and qualities of our merchandise demonstrated so that we can see with our own eyes the marvelous variety of New England products and the enormous magnitude of New England's output.

The primary purpose of the observance of the week is to sell New England to New Englanders. The secondary purpose is to sell New England anew to the peoples beyond her borders—in short, to reveal New England to herself and secondly, to reveal New England to others and the sole aim in the movement is the ultimate and permanent advantage thus derived for all New England.

How You Can Help Think New England. Talk New England. Live New England. Help sell New England products to New England.

FIRE AT POLAND SPRING

Damage to the extent of about \$10,000 was done to the dormitory in the rear of the Mansions House, Monday. The building is used for housing of employees of the hotel and the first floor is a laundry. Just how the fire started is a complete mystery.

15 New Studebakers

Including an entirely new type of car—the DUPLEX-PHAETON

Today Studebaker has made Automobile History and established standards of value and quality more fully and obviously than ever before

TODAY Studebaker proves that beautiful, distinctive, stylish body lines can be originated by American body designers without following precedent or imitating or adapting what has been done before.

Today Studebaker proves that a practical and beautiful type of car can be made to combine the pleasure and performance of the open car and the comfort and protection of the closed car—and this without excessive price or compromised quality—a car "duplex" in open-car smartness and convenience and closed-car elegance and comfort—and at a price no higher than that of an open car!

Today Studebaker proves, in its new Standard Six Duplex model, that a six-cylinder car of fine quality, great power, plenty of room and impressive appearance can be made and marketed at a price of \$1145.

Today Studebaker proves in its new Special Six and its Big Six Duplex models that the "ultimate" in all the essential features of quality in five- and seven-passenger cars can be made and marketed at a price of \$1495 and \$1875 respectively.

And this is possible only because Studebaker cars are made in one of the most comprehensive industrial plants in this country, 70 per cent of which is new within the last six years.

Every modern method of manufacture and long experienced management are available for the production of Studebaker automobiles.

Today Studebaker proves that the highest grade closed car bodies—framed in selected hard woods, cushioned with the best cushion work, upholstered in fine mohair fabrics and fitted with expensive appointments—can be made and marketed on superlatively good chassis at moderate prices.

This is made possible by the new \$10,000-000 Studebaker closed body plants. Studebaker designs and builds all of its closed bodies in one of the best equipped and most modern body plants in the industry.

The Three New Chassis

THE STUDEBAKER STANDARD SIX—113 in. wheelbase, 5-passenger. Engine 3½x5½, 50 b.h.p.—with 6 different bodies, including Duplex Phaeton, Duplex-Roadster, Coupe-Roadster, Coupe, Sedan, and Berline.

THE STUDEBAKER SPECIAL SIX—120 in. wheelbase, 5-passenger. Engine 3½x5, 65 b.h.p.—with 5 different bodies, including Duplex Phaeton, Duplex-Roadster, Victoria, Sedan, and Berline.

Three completely new chassis! 15 completely new bodies!
Completely new lines! Marvelous new performance
Completely new open-closed car!

Completely new radiators, new fenders, new lamps, new seating comfort, new finish, new colors in lacquer finish, three improved engines

Real balloon tires, not low-pressure cords. Sizes: 21"x5.25" to 20"x7.30"

New Studebaker automatic hydraulic 4-wheel brakes—optional

New values, never before equaled—even by Studebaker!

THE STUDEBAKER BIG SIX—127 in. wheelbase, 7-passenger. Engine 3½x5, 75 b.h.p.—with 4 different bodies, including Duplex Phaeton, Coupe, Sedan, and Berline.

The Ten New Closed Bodies

COMPLETELY NEW BODIES—each car a masterly expression of modern style, yet distinctly original in beautiful lines—individual, conservative, impressively elegant, but crisp enough in its departure from imitation to be entirely distinctive.

The Five New Duplex Bodies

(A new type of car originated by Studebaker to take the place of the open car)

SO ENTIRELY NEW and so different from any other body ever made before that a new name had to be created—the DUPLEX.

The upper structure is shaped in pressed steel and covered with the finest water-proof fabric. The steel construction permits the use of another radical Studebaker creation, the new roller enclosing curtains. There is the permanent beauty and durability of the steel top plus the instant convenience of the roller curtains.

Thus Studebaker engineers have solved the open-closed car problem.

The buyer who wants the airiness and practical convenience of the open car and who also wants the comfort, protection and beauty of the closed car can now get both in one car and at the price of an open car.

One moment the new Studebaker Duplex is a beautiful open car—a touch of the hand to the over-lapping roller curtains and it is a snug weather-tight closed car.

Ballon Tires

Genuine and full size balloon tires on all models. Every part that functions with the tires has been specially designed for balloon tire equipment—steering gear, steering knuckles, spindles and springs, even the fenders.

New Lacquer Finish

The Standard Six closed bodies are beautifully finished in semi-gloss, satin lacquer. The hood and lower panels are in light gray, the upper panels in darker gray. Hairline parallel striping in oriental red. Burnished nickel radiators, jet black fenders, light golden finished, natural wood wheels and big balloon tires are contrasting touches.

The Standard Duplex Models are finished in glossy jet enamel—lasting, lustrous and wear-resisting.

The Special Six and the Big Six Duplex models are in soft satin lacquer with dark blue hoods and bodies striped in light blue and ivory. Here, too, the sparkle is added with burnished nickel radiators and light, natural wood wheels in contrast with jet black fenders and big, black balloon tires.

More Power

The universally famous Studebaker engine is more than ever a peer among power plants. The crankshaft is heavier. ALL surfaces are perfectly machined to exact dimensions and balance. The bearings are larger.

The engine is in unit with the clutch and transmission. There is a force feed lubrication system with clean, strained oil always in reserve. There are many changes and improvements which result in MORE POWER, MORE QUIETNESS and SMOOTHNESS and STILL BETTER PERFORMANCE in every way.

New Brakes

Larger, more powerful, simpler and much easier operated two-wheel brakes. An entirely new emergency brake is operated from the instrument board, instantly convenient to the driver's hand where it is instantly convenient to the driver's hand where it is instantly convenient to the driver's hand where it is instantly convenient to the driver's hand.

The regular two-wheel Studebaker brakes with their simplicity, safety and great braking power are entirely adequate.

But Studebaker 4-Wheel Hydraulic Brakes (with disc wheels) can be furnished as optional equipment on all models at extra charge if desired.

Studebaker 4-Wheel Brakes have three exclusive features not found on any other system in this country.

1. Braking pressure is furnished by hydraulic power automatically developed. A light touch to the braking pedals controls its great force like a touch to the throttle controls the power of the engine. This feature will appeal instantly to women.

2. The front wheels cannot lock.

3. There are only two adjustments required—one at each rear wheel. The front brakes are permanently adjusted at the factory. The oil in the transmission is used to generate the hydraulic power; the action of the gears and the pump keep it in circulation; it cannot congeal or freeze. Braking power is always instantly ready—in winter as well as in summer!

New Ease of Operation

New Ease of Gear Shifting—New power in braking, a touch to the pedal exerts a giant's strength at the rear wheels—New clutch action, soft as velvet—A new steering gear and steering knuckles designed for balloon tires—A new grouping on the dash, including ALL the usual instruments plus a gasoline gauge that always works accurately.

Lighting Control Switches—all on the steering wheel—instantly handy.

Automatic Spark Control—No manual attention required, so the lever is eliminated. Automatically governed to all speeds with the precision of machinery.

And the Details

The new cars are longer and lower to the ground. The line from the radiator to the rear is nearly straight. The wheelbase of all models is increased.

The fenders are much wider and deeper crowned to cover the width of the tires. They fit more closely over the wheels. The rear fenders are long and gracefully curved into the running boards.

The radiators are high and set low in the frames and conver curved just below the filler cap. The design is strikingly original and beautifully distinctive.

Entirely new head lamps, and cowl parking lamps designed by Studebaker—artistically appropriate and in perfect keeping with the originality of the body and fender design.

Deeper, stiffer frames, more cross members; shorter, flatter springs for balloon tires. All bodies lower, all roomier, better and more comfortably cushioned. Seats are lower, backs and sides are higher.

Look Forward Into Next Year

The new Studebaker is here today! And no matter how sweeping your ideas of what a new model should be this car will satisfy you. It will thrill you with the very newness and originality of its beautiful lines.

You may not be in the market now, or even this year. But to see the new Studebaker is to look forward into next year—and the year after! SEE IT TODAY!

The Question of Water for Your Country Home

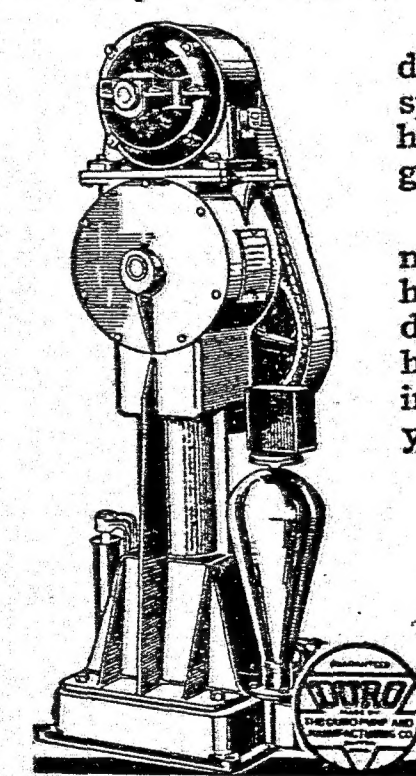

In planning your country home nothing is quite so important as the question of water.

Formerly it was considered sufficient for the farm or country home to have a hand pump or windmill. But now the hand pump and windmill are as obsolete as the old unsanitary outhouse or chemical toilet.

DURO Water Systems

"Just Like City Water Service"

made in many sizes and styles, enable any home anywhere, to have running water under pressure, all over the house, just like city water service.

Duro systems can be used with deep wells, shallow wells, cisterns or springs. They may be driven from high line current, farm light plant or gasoline engine.

A Duro system is a sound investment—it lessens labor and promotes health and cleanliness. It replaces drudgery and despair with comfort and happiness. And it is also a permanent improvement that adds to the value of your property.

Have your architect or builder ask for an estimate. Specify Duro.

BETHEL

Artemas H. Mason
Born Dec. 7, 1830, died Aug. 26, 1924

Mr. Mason was born in Gilead, the son of Sylvanus and Lydia (Scribner) Mason, being one of a family of seven sons and one daughter, all of whom are dead excepting two aged brothers, Leland and George Mason of Bethel.

In young manhood Artemas Mason married Mary J. Philbrook and to this union were born two daughters and one son, Hortense, who became the wife of B. C. Burbank; Vitella, who is now Mrs. Charles Crosby, and has lived with her father, and Durward H. Mason of the Circulation Dept. of the Portland Press Herald. He is now located at Bangor.

There is one granddaughter, Miss Dorthea Burbank, a student of Gould's Academy. Mrs. Mason passed away 20 years ago.

In the passing on of this aged man, Bethel has lost one of its oldest and its highly esteemed citizens, the greater part of whose long and useful life had been lived in Bethel.

Nearly forty years ago he was proprietor of a large boarding house at Saccarappa, (now called Westbrook), where he remained for several years, then he returned to Bethel to spend his remaining years among the hills and valleys he so dearly loved.

To have known him was to have known a quiet, unassuming man with malice towards none, but with a heart full of charity and friendliness towards all. His was the record of a life well spent, living the golden rule he lived content.

After having to give up active labor, he ever enjoyed helping about the chores. Although he had been very lame for a long period of time, he had never been confined to the bed or to a chair since he was a small boy until about two weeks before his death. He had been a life long Democrat in politics, and his religious preference was the Universalist faith.

Always a great reader, he was well posted on all the topics of the day, reading with much interest the daily papers as long as he was able to sit up. Many will miss for a long time the friendly nod and uplifted hand of recognition from him, who had sat for many summers in a favorite nook on the piazza each pleasant day, but the shadow of his absence will lift more slowly still from the home where his cheerful presence has been like a daily blessing to the daughter, who so faithfully cared for him. All his children were in constant attendance the last week of his life, and although he suffered much, never did he murmur or complain.

Funeral services were held at his late home, Aug. 28th, Rev. E. L. Wilson speaking most tenderly to the many who had gathered to pay the last tribute of respect to a man beloved by all. The hymn "Lead Kindly Light" was sung by Mrs. Mahall Hastings and the following poem by Addie Kendall Mason was read by the minister as a part of the service. Many beautiful flowers were silent messages of sympathy from friends near and far.

Oh! many a time and often
In the years that have passed and gone,
I stood in the wide old doorway,
And gazed on the well loved form,
To wait for the gleam of pleasure
That I knew in his eyes I'd see,
And the cordial tone in his friendly voice
With its welcome for you or me.
Ninety-three are the years he has traveled
Over this life's rough road;
And cheerfully bore his burden
With no murmur about the load.
His heart was so filled with goodness
That only kind words did he say;
And I know how lonely the home is
Since from it he's gone away.
So I bring you a tender message
On this day of grief and woe.
The great Master has called your loved one
To the realm where God's chosen go.
He has journeyed to lands of gladness
Where the waters flow deep and still,
And he rests with his loved companion,
For such is the Master's will.
Though you weep through a night of sorrow,
The morning shall bring sweet rest;
For we learn through hours of anguish
God doeth all things for the best.
Though shadows have gathered about you
And skies are so dull and grey,
Look up and trust in God's goodness,
For that was your father's way.
And I seem to hear him saying—
By soft breezes his voice is borne;
My torch of faith and kindness
I leave—you must carry on!

Mrs. Nora Marsden, after a month's vacation from her duties as night supervisor of a Philadelphia, Penn., hospital, has returned to her duties.

Mr. and Mrs. Clarence Sweetser and children, Edna and Walter, Mrs. Randall and son, Frances, all of Hyde Park, Mass., who have been guests of Mrs. Amelia Grover, have returned to their homes. Mrs. Grover will remain a while longer before closing her home here.

Mr. and Mrs. Ernest Paine of South Paris were in town, recently.

Erma Marshall went to her school in Norway the 14th. She teaches in the Frost Hill district.

Miss Angie Chapman has been visiting friends in Bath for several days. Leslie Poore will soon move into Fred Clark's rent on Elm Street.

Roger Sloan and wife, with a lady friend, were week end guests of relatives in town.

Mr. and Mrs. Harry Jordan were guests of their son, Elmon Jordan, and family at Mechanic Falls last week.

Miss Mary Chapman will occupy a rent in Alanson Tyler's house on Spring Street.

Mrs. Horace Annis is ill at her home on Main Street.

Carl Brown and family were visitors at North Stratford, N. H., recently.

Mrs. Albion Hill has returned from Portland. Her daughter came with her for a short stay with her parents.

The new bridge on Alder river and Mill brook on the steam mill road are under construction.

The foundation for a house has been started by Mr. Aubin on Mason Street. In spite of rain and cloudy weather, quite a number attended the County Fair. The new boiler is in place at the Spring mill and the roof is being completed. A part of the help have been put to work again.

Nahum Moore has taken a position with the Morrill Adams Co. at West Bethel. Dana Hall is able to enjoy walking around the yard and is steadily gaining. Improvements have been made on the intervals taken during the heavy rains, and stock had to be transported from the low lands.

Mrs. Sarah McKinney will soon go to Abington, Mass., to look after her property there and may possibly remain there for the winter.

Mrs. Ada Conner is in South Paris with her nephew, Sherman Ordway, and family.

Mrs. Winnie Hall, Bartlett is having a vacation from E. P. Lyon's store. Mrs. Leslie Poore is substituting.

ASK any owner of full-size Balloon Gum-Dipped Cords about the comfort, safety and operating economy they are giving him. Let his experiences give you the facts about these wonderful tires. His comments will match these almost word for word.

There are hundreds of thousands of Firestone Gum-Dipped Balloons on the road today. Wherever you drive you see them—and you cannot help but notice the new enjoyment these owners are getting from their cars.

This immensely increased production has brought about many manufacturing economies, which you can take advantage of today by equipping your car with Balloon Gum-Dipped Cords.

Firestone Dealers are quoting special net prices on the complete job. Trade in your old wheels on a new set built for full-size Balloons. In addition get our liberal rebate on your old tires.

Equip now for comfort and economy—as well as for the safety and better car control you will need this fall and winter.

Call on the nearest Firestone Dealer—for information—for your price—and for a quick, carefully-engineered changeover to real Gum-Dipped Balloons.

BIRD'S ROOFS

A Roof for Every Purpose

There's a Bird roof for every sort of building!

1. NEPONSET TWIN SHINGLES—for homes, churches, garages, clubs. They are beautiful, durable and waterproof. Are extra large, extra heavy, have extra asphalt waterproofing, extra coating and extra red, green or blue-black slate surfacing.

2. SHINGLE DESIGN Roll Roofing—for smaller houses, garages, sheds, farm buildings—a thrift combination of good looks, serviceability and real economy.

Comes with natural red or green slate surfacing and looks like asphalt shingles from across the street. May be laid right over your old wooden shingles.

3. PAROID Roofing—for farm buildings, barns, sheds, garages, warehouses and industrial buildings. It is sturdy and handsome. Has a distinctive, durable bright-gray surface.

Has been in use for over a quarter century—a significant record of performance.

Ask us to recommend the proper Bird roof for your individual use. Our advice is cheerfully given without charge. Bird's Roofings are made by Bird & Son, Inc. (Est. 1795), manufacturers of Neponset Black Building Paper and Neponset Board.

We are headquarters for Bird's roofings, building papers and wall board.

PARET'S WILD LETTER

Weird Notions About How to Run a
Paper are Ridiculed

Somerville, Mass., Sept. 13, 1924.

Dear Mr. Sanborn:

As one who was reared on and in
the Norway Advertiser school of news-
paper work, I wish to express my amazement at the weird conceptions of news-
paper business displayed in the letter
from one, Mr. Edward S. Paret, of
Langhorne, Pa., in connection with the
organization of a Kiwanis Club in the
good old town. It is the more amazing
as it purports to come from one in the
advertising business, who might be ac-
quainted with things as they are. At
any rate it is funny, and I can imagine
the twinkle in your eyes as you over-
looked it, perhaps as a good joke on
yourself. But the real joke is on the
man who wrote it. Perhaps I am mak-
ing a mistake in treating it as of suffi-
cient importance to bother with. At any
rate a paper not sure of its standing
would not have dared to print such a
tirade against itself.

He says this choice sentence: "Your
paper must be made to boost your town."
This is true but the application of it is
false. For the paper has never failed to
boost the town in the 37 years since I
entered your office as an apprentice. It
cannot be made to do a thing that it al-
ready is doing. The only possible ex-
cuse for such a remark as Mr. Paret's
is that he does not comprehend anything
that is done without display type.

"You have a right to demand this (the
aforementioned boosting) because you
are paying for space with the object of
reaching the greatest number and your
publisher is not helping you one iota."

This to Norway business men is a
falsity. The man who buys advertis-
ing space in the paper does not have any
right of control of any other part of the
paper. It is an old familiar trick for
advertisers to attempt to censor the
reading matter of a paper. Mr. Paret
claims to be in the advertising business,
and really, he does appear to use the
dialect of a certain advertiser.

The publisher who lets the advertisers dic-
tate to him, and the advertisers who
dictate, are both punished by the
readers losing confidence in the paper.
When the readers lose confidence, the
advertising loses some of its value, and
that punishment hits, as already stated,
both the publisher and the buyer of
advertising space. I never knew a man
in the advertising business who was
willing to offer extra money for any-
thing, but it is characteristic of many
of them that they try to meddle with the
news columns without paying for it.

Further your paper is reaching more
readers than it could possibly do by the
Paret scheme.

It has already been shown that the
statement about the publisher of the
paper not helping the town is, well, call
it "inaccurate."

"It is you men collectively who make
this paper a success." An amazingly
bold statement in a paper a success. They
patronize it because it is a success.

If they bossed the newspaper, it would
not be a success; at least if they bossed
it in the way that Mr. Paret urges. He
has "the cart before the horse" as the
saying goes.

"I have often wondered why from
business men have not demanded of the
owner of your local paper that he run
the paper in such a way that your
advertisements would pull better." Mr.
Paret may have wondered, but it is
clear that he does not know how well the
advertisements do pull when published
in the Norway Advertiser. A part of his
idea of how to do this appears in an-
other place, where he proposes display
advertising on the front page. Well, a
common rate for display advertising on
the front pages of papers, which do not
permit such a thing, is four times the
rate for similar advertising on inside
pages. The fact is, you are, as a pub-
lisher, depriving yourself of revenue by
excluding advertisers from the front
page. You are also keeping the paper
so that, when one sees the front of it,
it looks like a newspaper instead of a
mess of clutter, the way that advertising
looks when advertisers try to crowd stuff
into space for which they pay front
page rates.

It is possible that Mr. Paret gets his
idea of a noisy front page for a country
weekly paper from some of the papers
in towns which have no surrounding ter-
ritory, but depend entirely on the patron-
age of their own townspeople. The
display head writing in most such papers
would earn a copy desk man the grand
bouance within the first half hour of his
attempt to hold down a job at the semi-
circular table in a big newspaper office.

He advises the business men of the
town to "formulate a plan showing
how the first page should be handled."
Else he is just saying something that
sounds big to himself, without express-
ing accurate ideas of newspaper making,
or else he is actually not acquainted with
the only known process by which a news-
paper can be put together. It is hard
to treat it seriously, but I will try to
do so. The editor of a paper cannot
know till the closing of the forms what
is to be the style for the front page of a
paper. It is never twice alike, not even
on a paper that has so small a variation
from week to week as has the Norway
Advertiser. The only way to enforce his
recommendation would be for the busi-
ness men of the town to appoint a repre-
sentative to go into the newspaper office
and see what is ready, and will be ready
in type, to go into the paper, and decide
on where and how to put the different
pieces of news on the front page, after
they had selected the things for that page.

If there is any other way, the newspaper
publishers of the country would be in-
terested to learn it. I am familiar with
the two of men who call themselves ad-
vertising men, and who tell the editor
that he ought to have a two-column head and a cer-
tain style of one column story in another
spot, and perhaps a box in another. As
far as I have observed, they did not
know any better. But genuine news-
paper makers, including those who
have been long enough to get familiar with
how things are done, know the absolute
fact that news was never, even for a
single issue of the paper, known to
"break" right to fit a pre-conceived
makeup of the front page. If the
gentleman from Pennsylvania can sug-
gest a way to do what he advises, there
are plenty of newspaper publishers in
the biggest cities of our land ready to

pay him a larger salary than they now
pay any man on their staffs.

I remember a man now dead who once
came into the Norway Advertiser office,
and told the printer, Reuben Bastman,
that he ought to make up a poster from
the foot instead of the top. Reuben
grinned. The man appeared ruffled but
his advice was not accepted, and asked
Reuben why he did not do as recommend-
ed. The answer was: "Because I am in-
telligent." The reason why newspaper
front pages are not made up in such man-
ner as Mr. Paret recommends is because
the newspaper make-up men are intelli-
gent.

I have been and am proud to tell peo-
ple that I started on the Norway Adver-
tiser, and that I would like to continue
work on such a paper, if that could be
feasible. The Norway Advertiser gives
more service to the Advertiser than any
other country weekly paper of which I
have ever been able to learn. It not
merely reaches the men and women in
Norway but the people in Hebron and
Woodstock and Otisfield, and Lovell,
and other towns with the shout that
one-half of the country trade which now
comes into Norway village would never
have come there without the Norway Ad-
vertiser going after that trade. The
advertising does pull. And that has
been accomplished, not by making a false
all over the front page, but by contin-
ually insulting the people of Hebron, and
Woodstock and Otisfield, and Lovell,
and other towns with the shout that
Norway is the only whale of a place, but
by saying that all are good, by giving
expression to the sorrows and joys of the
people and faithfully using all men like
within the sphere of the newspaper's
influence.

But, try a little analysis of one Paret
notion, and suppose that the paper
should succeed in bringing 100 summer
visitors for an average of three weeks
each. Would they mean so much to the
merchants in Norway village as would
balance the loss of 50 subscribers to
your paper for 52 weeks in this year
and next year and the years hereafter?
And that is surely the way it would work
out. A little candid looking at things
is all that is needed to show the false-
ness of the premise and the fallacious-
ness of the reasoning in that letter which
somebody "got my goat."

There, I have freed my mind. I will
solemnly promise not to blow off steam
again in this way any more. The next
time that somebody writes a queer letter,
I will keep as silent as if my name were
Calvin Coolidge.

With best wishes,
D. Cromett Clark.

STOW

The recent heavy rainfall resulted in
the largest freshet for years. Corn
planted on the intervals near Cold River
was almost completely covered by water
in some places. The deep water and the
current exposed Herbert Emerson's pota-
toes so that he is now digging them al-
though the ground is very wet. Walter
McKeen had pulled beans to the amount
of twenty stacks situated near the river
and they were all washed away.

Fred Charles had some horses on the Jay
Chandler place which were on a little
island surrounded by water and a man
had to go across and drive them to dry
land.

Harriet Bickford is attending Conway
High school which began Sept. 8.
Ashley Emerson of Scarborough and Elden
Emerson of Hill, N. H., have been spend-
ing a few days with Herbert Emerson.

Alice Irish Merritt and husband from
Massachusetts visited friends in town,
recently.

Lester Fernald, Mariette, Erville and
wife attended the second day of the Nor-
way Fair.

Sidney Sanborn has had his car paint-
ed.

Little Alfreda Teague, two years old,
fell into the watering tub at her grand-
father's home and no one knew anything
about it until she appeared in the kitchen
white as a sheet and leaving a trail of
water behind her, wet from her head to
her feet.

AN OXFORD COUNTY CASE

A rescript was handed down in the law court at Augusta, Thursday, in the Oxford County criminal case of the State vs. Frank C. Brackett of Norway. This case was entered in the October term of the Supreme Judicial court, 1923, and was for an attempt to manufacture intoxicating liquor. At that term a demurrer was filed and overruled. At that time a sentence was imposed of a fine of \$1000 and two months at labor in the county jail, to begin on the expiration of a term he was then serving. The clerk was authorized to take bail in the sum of \$1000, which was secured.

The rescript handed down reads: "This case is not properly before the court. "It purports to have been brought forward on exceptions to the overruling of a demurrer, but no bill of exceptions appears in the record and the docket entries do not show any such bill of exceptions was allowed or even filed. "The case must be dismissed. The respondent has not suffered by this irregularity, however, for an examination of the indictment shows that the demurrer was properly overruled."

Reunion of Abner Jackson's Boys

At the old Abner Jackson farm owned by Rust and Solomon Jackson, where Mr. and Mrs. Rust Jackson live, the five brothers and their families gathered on Sunday, Sept. 7th.

John M. Jackson and his wife from Ashland, N. H., came to spend the week end. This is their first visit to the old home place since his father died 11 years ago this fall. With them came Mrs. Jackson's sister and her husband, Mr. and Mrs. Clinton Knowlton and their son, Harold, as chauffeur of the big Buick. They had a wonderful trip down through Portland and Poland Springs, Saturday, arriving just in time for supper. Early Sunday morning they made calls on the cousins, Harry Millett and Mrs. Frank Millett, and their families, returning to the home farm in time for the picnic dinner.

There were twenty-two gathered about the dining room in the center of which was the table laden with all the good things brought by the different families. There were ham, egg, deviled meat, cucumber and crab meat sandwiches, all kinds of lovely cake, apple, mince and berry pies, doughnuts, cheese, tarts, coffee, and bonbons, with cigars for the "boys."

In the gathering were John M. Jackson and his auto party from Ashland, Foster Jackson and wife from Oxford, Harry M. Jackson, wife and children, Alpheus, aged 13, Elizabeth, aged 12, Arthur, aged 6, and Beatrice, aged 2, from Crockett Ridge; Rust and wife and daughter, Doris Bradley and Mrs. Hatie Beck of Milton, Mass., who is spending the summer with Mrs. Rust Jackson on the home farm; and Solomon Jackson and wife and daughter, Eva Marion, and Mrs. Bradley Willis of Green Elms. Unforeseen excitement was furnished by the running rampant of a beef steer when all the men gave chase to herd him in, and then later word was received that collie dogs were in the Paris pasture killing sheep, and the men took a quick tramp over to investigate. They found one dead and terribly mangled and another so badly torn and suffering that she was put out of her misery. A man was left on guard with a gun to defend the rest of the flock of over 70 head. During the homeward tramp, John, the eldest by several years, was as spry and not the least bit winded. The secret is that he has kept himself fit all these years tending his flock of hens and caring for his one cow though living only 10 minutes walk from the very heart of the town.

While the men were on the still hunt in the pasture, Mrs. Sol Jackson took the ladies round to the shore of North Pond in her car where they enjoyed the breezes from the water in the shade of the pines and took some snap shots of baby Beatrice at the water's edge with her aunties.

Returning to the home farm a group picture of the whole crowd was taken and one of just the five brothers, and one of the boys and their wives, for he is known, the youngest to take a wife was 36 years and the last to marry waited till within a few years of being 50 before capitalizing.

It was a wonderful fall day and a gathering long to be cherished in their memories. John and party left early Monday morning for New Hampshire.

Observed Wedding Anniversary and Birthday

The fortieth wedding anniversary of Merton and Stella (Pottle) Libby was celebrated in real old fashioned style at their Main street home in Saturday evening. The evening's festivities included a kitchen dance, reminiscent of the customs of 40 years ago when they were married. It was a double celebration for Norman MacDougal of Exeter, N. H., a guest of honor, fortunately first saw light on the thirteenth of September and he was presented with a birthday cake made by Mrs. Maggie Libby, generously decorated with candles, which he cut and passed among the neighbors and friends who had gathered in honor of Mr. and Mrs. Libby.

"Never will I admit that the thirteenth day of the month carries any superstitious charm about it," gaily declared Mr. MacDougal as he alternately passed slices of his birthday cake and danced the old time, Lady of the Lake and Hull's Victory to the music of the phonograph, which was specially used because the old time neighbor and friend, John Hazelton of Portland, was prominent in these specially prepared records. It was all most like hearing the John Hazelton of old, himself, admonishing the merry dancers to "balance the next below." One old time face was missing, that of Rev. W. W. Hooper, the beloved Universalist pastor of forty years ago who united Mr. and Mrs. Libby in marriage at Mechanic Falls.

Mr. Libby is the popular machinist with the Carroll, Jellerson Shoe Company of Norway. He started in the shoe game at the age of 13 and was learning the machinist's trade when he was 19. He was for a time connected with the United Shoe Machinery Co. later he was employed in this capacity with the B. F. Spinnery Co., which operated at Norway for a number of years and when the new concern, the Carroll, Jellerson Co. located here he joined with them and has been machinist all the 11 years of their operation in Norway.

Ice cream and cake, fruit, candy, etc., was served on the spacious screened porch and Mr. and Mrs. Libby were remembered with generous presents from their friends. Among those present were: Mr. and Mrs. Charles Hanson, Oxford; Mr. and Mrs. Norman MacDougal, Exeter, N. H.; Miss Ruth Libby, New York; Mr. and Mrs. Marshall Pitts, Harrison; Miss Fannie Crocker, Boston; Mr. and Mrs. Forest Thomas aid daughter, Wilma, of Lewiston, and the following Norway folks: Victor Rowe, Mr. and Mrs. Libby, T. Newcomb, Mr. and Mrs. Eugene Libby, Mrs. Mary E. Seavey, Mrs. Charles Grover, Miss Mattie Fiske, Miss Elizabeth Foss, Edward E. Libby, Mr. and Mrs. Frank Libby, Corrydon L. Cole (aged 84) and Mr. and Mrs. A. A. Pottle, H. E. Woodworth and daughter, Arline, Mrs. Lillian Bartlett, Carroll Bartlett and Mr. and Mrs. Harry A. Packard.

One of the guests of the evening, Miss Mattie Fiske, figured in the ceremonies following the wedding in 1884. She was one of a group of young ladies to present a willow chair to the newly weds and at the 40th anniversary had the pleasure of occupying the same chair reserved as a seat of honor.

Henry C. Cullinan was home from Kent's Hill Seminary for the week end.

Tempest and Sunshine

Tempest and Sunshine, the Southern comedy drama, to be presented at Norway Opera House, Sept. 30th, contains in its cast a rather imposing array of amateur talent.

The two title roles are played by Mrs. Eugene Stevens of South Paris as "Tempest," and Doris Cummings as "Sunshine." Mrs. Stevens is dramatic coach at South Paris high school and was leading lady in last year's Community Club success, "Mrs. Temple's Telegram."

Miss Cummings will be remembered by her portrayal of several difficult parts in the N. H. S. plays during her attendance there.

The Imperial Male Quartette has been secured and will render several Southern melodies during the action of the drama. Dancing follows the show.

There are three changes in the cast from that published several weeks ago. Doris Cummings will take the part of Hilda Russell; Mrs. Albert Thompson has the role of Edith Joslin was to have taken and Clarence Dyer will substitute for Harry Kenyon. Absence from town caused the changes.

Paul Nevers and Clarence Dyer as "Richard Wilmet" and "Joseph Dunn" will be remembered by their clever work not only in high school but in "A Regiment of Two" presented by Co. C. last Spring.

Stephen Braden as "Hugh Stanton" played the principal male role in the "Blossom of Hymen" and has a part particularly well fitted to him.

The two Negro comedy parts, Mammy, Mrs. Mary Bicknell, and Bobaway, Mrs. Albert Thompson, are the types very pleasing to a Norway audience.

Harold Anderson plays the part of "Josh Middleton," father of Tempest and Sunshine.

Mrs. Ida Hill Douglass of Bethel is assisting at the Fashion Shop during the fall season.

Miss Libby is attending the convention of photographers at Boston, this week.

National Defense Day passed in Norway without public recognition. A few flags were displayed and Co. C. Me. National Guard assembled at the armory to participate in the demonstration at So. Paris.

Stuart W. Goodwin attended the meeting of the Maine Association of Insurance Agents at Augusta and was elected a member of the executive committee.

Mrs. H. A. Castner of Gardiner is visiting her parents, Rev. and Mrs. N. R. Peabody.

Giles Frost is taking a vacation this week from Stone's Pharmacy. He is enjoying the time burning gasoline and attending fairs, but hangs his hat on the peg at home every night.

The special meeting called for Saturday night for the Daughters of Veterans has been cancelled as the candidates will be present for the regular meeting, Sept. 26.

HEALTH CHORES

MAINE STANDS SECOND

Maine, which for the past three years has led all the New England states in the proficiency with which the daily "health chores" of the Modern Health Crusade is conducted in the schools through the cooperation of the Maine Public Health Association and the State Department of Education, now stands second in the United States.

This announcement was made at a joint luncheon of the Bangor Chamber of Commerce and the Maine Public Health Association by Miss Abbie Buck of the Maine Public Health Association staff, who is in charge of the school health program of the association.

Forty-eight Maine schools in thirteen counties were responsible for putting Maine next to the top in this national proficiency test. Each of these schools has been awarded a national pennant which will be presented with appropriate ceremonies under the joint auspices of the Maine State Department of Education and the Maine Public Health Association. Only one school from Oxford County is listed. That is the West Paris Framingham school, Leah C. Deedy, teacher.

NORWAY AND VICINITY

Horace Cummings of Buckfield was at the Nurses' Hospital for two days for the removal of tonsils and adenoids.

Miss E. W. Small R. N. and Miss L. B. Wentworth R. N. have reopened the Nurses' Hospital after a short vacation. They enjoyed a camping trip of one week with Mr. and Mrs. Walter Wood and Mr. and Mrs. Walter Holden of Oxford, which included a visit to Sherbrooke Fair, Montreal, the Thousand Islands and Rouses Point.

Mrs. Fred Rowell visited her parents, Mr. and Mrs. C. L. Russell, during fair week.

Mrs. Jane McKay, who has been receiving treatment in Boston this summer for eye trouble, is visiting relatives a few days. She came with Shirley McKav, who has been attending the fair.

Mrs. John Wood of Auburn was the guest of her father, W. A. Bicknell, during a part of County Fair week. A. R. Clark and Sumner Skilling of Bowler's Mills, while motoring to Norway, Monday forenoon, overtook a bull moose not far from the Ten Hill water-trough on the Bowler's Mills road. The moose literally hogged the path and trotted along unimpaired of a honking horn. The car trailed along fully one-half mile before the animal leaped over the fence where he appraised the men and car in a matter of fact way. Mr. Clark described the moose as weighing about one thousand pounds with antlers widespread and in the pink of condition.

BATES—WEST PARIS

Buried in Greenwood

The remains of Lendall B. Bates were brought here from Waldoboro and the funeral was held in the Methodist Church Friday, Sept. 5. Rev. N. R. Pearson of Norway officiated. Mr. Bates was a native of Greenwood, and for several years was in the meat business, buying and selling beef creatures and part of the time kept a shop for retail business here.

He was the son of Gilbert and Laura Emmons Bates of Greenwood and was about 44 years old. He was twice married. His first wife was Edna Richardson of Greenwood, who lived only a few years. His second wife, who survives him, was Hannah Emmons, also three daughters, Ona, Laura and Iva. Besides these he leaves his aged father, three brothers, Wilbur of Greenwood, Estes of Woodstock, and Will C. of Norway and one sister, Linnie, wife of George Cole of Greenwood.

The remains were taken to Richardson-Hollow, Greenwood, for burial. Mr. Bates was a general good fellow and had many friends here and, doubtless, wherever he resided, and the death message was a surprise to all. Rumor at first attributed it to foul means as his lifeless body was found in an out house. Autopsy was held and poison was found in the stomach. He had twice been burned out, experienced long sicknesses in his family, and other financial losses. Discouragement followed by despondency is thought to be the cause.

Gertrude Stuart has returned from a visit to her sister in Auburn.

Will Farr has gone to Farmington to work in the corn shop.

Walter Ring is operating an engine in a corn shop in New Hampshire.

The corn shop here started up Saturday afternoon. Only the cutting machines are in the shop.

A letter from the Edmonton Journal speaks highly of the young couple, following is a quotation which will be of interest to Oxford County people.

"The bride, who was Miss Winnifred Martin, is the daughter of Mr. and Mrs. W. J. Martin, formerly of 1154 92nd St. and now at the coast and an Edmonton born girl. Apart from the prominent part she has played in the history of the Commercial Grade, and in the advancement of basket ball in Edmonton, she has won honors in other fields. As far back as 1915, she came into the limelight by breaking the record for fast typing. On October 23, 1922, she obtained her degree of Bachelor of Arts from the Queen's University, Kingston. Immediately afterwards she went to New York to compete in the international typewriter competition, and to defeat all other Canadian contestants in the amateur class. Graduating from Queen's in May, 1923, with the degree of Bachelor of Commerce Miss Martin returned to Edmonton and commenced the teaching staff of the McDougall Commercial High School. Endowed with a charming personality, Miss Martin made friends wherever she went, and these and the basket ball fans generally will join in good wishes for her future happiness."

HEBRON

Mrs. Delphina Cushman

Mrs. Delphina Cushman passed away in South Portland, Wednesday, September 10, with heart failure, at the age of 86 years.

Mrs. Cushman was the daughter of the late Major Cushman and was born in Paris, January 15, 1838. She attended Hebron Academy having come to Hebron when quite young where she continued to live until five years ago when she moved to South Portland.

She married Horatio A. Cushman of Hebron about 65 years ago and to them were born three children; Rosa, wife of A. M. Richardson of South Portland; H. Mortimer Cushman of Lynn, Mass., who is in the shoe business; Daisy, wife of Hersey Monroe of Washington, D. C.

Mrs. Cushman has held the office of Chaplain of the Z. L. Packard, W. R. C. for several years. She was also a member of the Baptist church and a worker in the Ladies' Aid. In political affiliations she was a Republican.

Besides her three children she is survived by two grandchildren, Norman and Albert Richardson.

The funeral was held Sunday at 1 o'clock, at the Hebron Baptist church, attended by Rev. A. E. Kingsley. Vocal selections were rendered by Mrs. Howard Glover. The bearers were Clement Munce, nephew, and F. I. Sturtevant, neighbor, Leon Whitman, Chauncey Crafts, Emerson Phillips, Dwight Cushman. Burial took place in the family lot at Maple Ridge Hebron Cemetery.

There were many beautiful flowers testifying to the love and esteem in which Mrs. Cushman was held.

Those from out of town to attend the funeral of Mrs. Cushman were, Mr. and Mrs. H. M. Cushman of Lynn, Mass., Mr. and Mrs. A. M. Richardson of South Portland, Mrs. Hersey Monroe of Washington, D. C., Mr. and Mrs. E. W. Hibbs of Portland, Mr. and Mrs. E. P. Phillips, Chauncey Crafts, Mr. and Mrs. Hartley Cushman, Mr. and Mrs. Warren Obbetts and Mrs. P. E. Tainter of Auburn, C. H. George, George, Giles George, Mr. and Mrs. Clement Munce and Mr. and Mrs. Thomas E. R. Barnes of South Paris, Mr. and Mrs. Carlton Cummings of Auburn. Mrs. C. W. Cummings assisted by Mrs. H. H. Merrill and other neighbors served lunch to Mr. and Mrs. Richardson and Albert Richardson, Mr. and Mrs. H. Cushman, Mr. and Mrs. J. W. Hibbs and Mrs. Hersey Monroe, before they returned to Portland.

EAST SUMNER

Mrs. Henry W. Bonney

After several years of failing health, Mrs. Henry W. Bonney passed away at her home, Sunday morning. She was in her usual health until one week before her death, when she and her husband were out riding. When about a mile from home, she was stricken with paralysis in her right side and continued in a state of semi-consciousness until she quietly fell asleep Sunday morning.

She was a woman with a rare sweetness of disposition and will be greatly missed in the neighborhood and especially in her family. Besides her husband, she leaves seven children, four sons-in-law, and fourteen grandchildren.

One daughter, Ethel, came home to live a few weeks ago.

She was a member of the Baptist Church and was always a willing worker in every good cause.

She was the oldest daughter of the late Daniel and Frances (Field) Palmer.

The funeral services were held at her late home last Tuesday, conducted by Rev. F. M. Lamb of Canton.

Mrs. Flora Parks and her daughter, Lillian, of Quincy, Mass., who have been visiting in town returned home last Tuesday morning.

Several of our young people are entering Buckfield High School this fall.

Locals

A crowd of joy riders in a Ford touring car coming down Pleasant Street last Monday night, came very near causing an accident by trying to be smart. They held to the wrong side of the road straight toward an oncoming car traveling into the ditch, when within a few feet swerved sharply and went on their way laughing. No damage was done but a serious accident might have occurred.

Mrs. Hazel Eastman met with a slight accident, Monday noon, at Miller's farm. She was on her way to bring her husband to dinner. Just at the turn, which is a dangerous one on account of bushes, she met a Ford truck whose driver failed to notice the horse, so that he was in collision with the car, which caused the road ditching her car and breaking a wheel. Beyond a bruised arm and a bumped head she was unhurt. Said an accident might have been avoided if the truck driver had blown his horn.

E. A. Greenleaf has turned author and is writing an his fishing and boating trips for publication.

Mr. and Mrs. Harry A. Packard will move into the Smith house on Irving Street formerly occupied by Mr. and Mrs. Fay Blake.

Prof. E. H. Brown and A. W. Ramsdell were the number of local people attending Andover Fair, Thursday. Prof. Brown judged the cattle.

Mrs. John Sampson has returned to the village after a successful season at Wasce Cottage. The cottage will open every Sunday during the automobile season.

In the Maine booth at the Eastern State Exposition at Springfield, Mass., was an exhibit in the rest room of cross-skis and snowshoes loaned by the W. F. Tubbs Company of Norway. It is particularly timely to note that Donald MacMillan was using these snowshoes in his Arctic explorations and speaks of them in the highest terms. The Tubbs Company is organized to turn out over 250 pair of snowshoes every working day and can make even more than that number of skis. This rate of production makes it the largest exclusive snowshoe and ski factory in the world.

A fine musical entertainment was given by Mrs. Boudie Gaveland Young at the Methodist church, September 17. Mrs. Ruth Cummings Hutton was accompanist. Miss Marion Haskell, violinist, and Clara Harrison, tenor, assisted in the delightful program.
